EXPERIENCE

SEID LAB - Lead Lab Technician

AUGUST 2024 - PRESENT | SJSU - San Jose, California

- **Supervising and Managment:** In charge of creating work shifts, keeping track of shift hours, taking inventory, communicating and collaborating with students and faculty members, organizing and conducting class demos, and documenting all print requests.

- **Troubleshooting and Collaboration:** Work with other lab techs and students to fix issues regarding the machines and/or software. Provide assistance to students new to programs like Adobe Illustrator and V-carve.

- **Machine Operation and Support:** Manage various machines at the lab such as the Laser Cutter, FDM printers, SLA Printers, Sewing Machines, Vacuum Formers, CNC's and assist students with their projects to get the best outcome.

- **Lab Safety:** Constantly promoting a safe environment within the lab through the usage of machines, guiding and teaching students the best and safest way to use the machines, and keeping the lab clean.
